CAMERA FOR
TRAY DETECTION

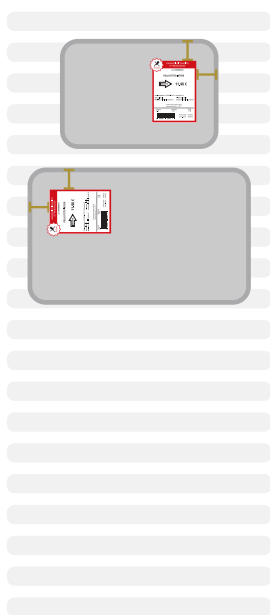

AUTOMATIC
TRAY CENTERING

Automatic wrapping machine in stainless steel that **weighs, wraps and labels** up to 35 trays per minute, particularly suitable for deli, meat and produce department.

LABEL

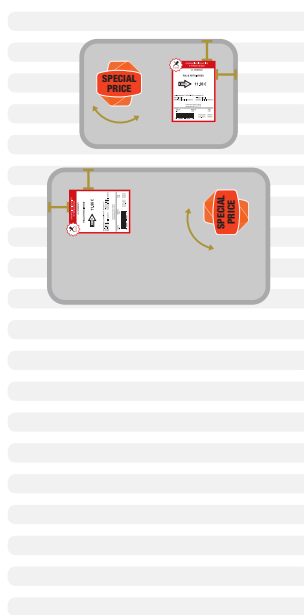

The position and angle of the label application is configurable with the type of tray.

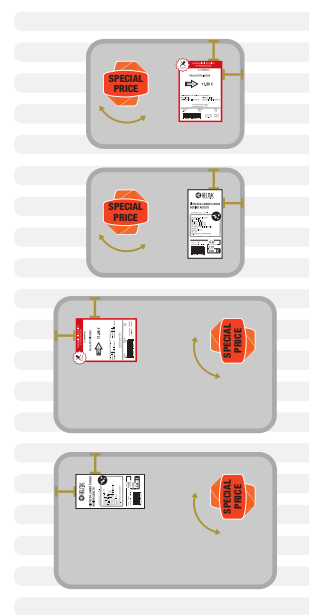

LABEL + PROMO

Application of additional promotional label, pre-printed or with customizable print.

ETICHETTA VARIABLE + PROMO

Management of two labels of different sizes with customizable graphics and application and printing of promotional label (PROMO).

PRECISE AND FAST LABELING
thanks to the automatic applicator

TRAYS OF DIFFERENT DIMENSIONS

WM AI is the only wrapping machine equipped with 2 reels.

The machine chooses the most suitable film according to the size of the tray. This makes it possible to wrap different formats with considerable savings in terms of material and time.

Compact Size

- Always efficient wrapping in a minimum of space

12" Touch Screen Display

- Fully configurable with many functions
- Multiple statistics on wrapped goods

Tray Detection and Centering

- Always centered tray
- Tray size recognition
- Faster entry for the operator

Film Reels: 1 or 2

- Material saving
- Automatic film selection

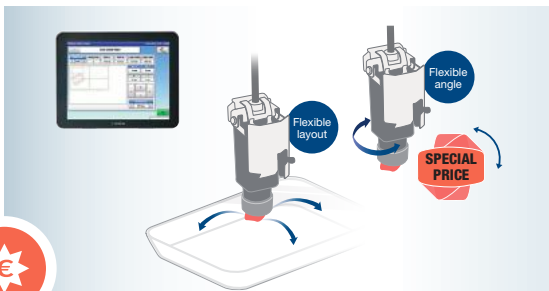

Printers: 1 or 2

- Management of labels of various sizes
- Customizable texts, graphics and angle
- Easy roll replacement thanks to the pull-out drawer

Applicator of Promotional Labels

- Integrated printer for label customization
- Configurable angle and position

Automatic Applicator

- Extremely precise application for trays of any size

Output Roller Conveyor

- Integration into production line

Input Belt Conveyor

- Maximum wrapping speed
- Simultaneous work of several operators
